Two New Flagship Programmes

The EmpowerED Teacher · The Girl Code Compass

Tackling the two most urgent and underserved crises in schools today

These are not add-ons. These are the programmes that address the real crisis happening in schools right now — on both sides of the classroom door. Together they create a whole-school transformation that no other provider is offering. Both are B2B, both are CPD certified, both have passive online income streams, and both are rooted in Sofia's lived experience and professional expertise.

Most suitable for: All schools · Secondary focus · MATs · NQTs · PGCE programmes · College & FE

By the end: teachers understand what is really happening in their classroom emotionally — and have the tools to respond rather than react, connect rather than control, and teach from a regulated place.

Teachers are not failing because they do not care. They are failing because nobody ever taught them how to navigate the emotional world of a young person. Nobody told them what to do with the student who makes them dread Mondays. Nobody showed them why trying to be cool backfires. Nobody explained what a hormonal, traumatised, unheard teenager actually needs from an adult. The EmpowerED Teacher fills that gap — and it is the only programme in the UK that does.

OPTION A — CPD DAY · 4 SESSIONS · FULL DAY OR 2 x HALF DAYS · UP TO 30 TEACHERS

AM1 What Is Actually Happening in Your Classroom

The emotional reality of a secondary school classroom — hormones, home life, identity crises, social anxiety, trauma and the teacher caught in the middle. Teachers finally understand why students behave the way they do. No blame. Just truth.

Includes: Classroom emotional reality audit · student behaviour translation guide · teacher reflection exercise

AM2 You Bring Yourself Into That Room Too

Teachers are human first. They carry their own triggers, histories and unmet needs into the classroom. The teacher who dreads one student. The teacher who snaps. The teacher who tries too hard to be liked. This session names it without shame — and gives teachers tools to regulate themselves first.

Includes: Personal trigger mapping · teacher reset toolkit · the dread student exercise · what I say vs what I mean to say

PM1 The Art of the Real Connection

What genuine teacher-student connection looks like — and what it does not look like. Why trying to be cool backfires. Why authority without relationship fails. How to earn trust with a student who has been let down by every adult in their life.

Includes: Connection vs control framework · what students actually need from teachers · the trust-building toolkit · what not to say — and what to say instead

PM2 Reset the Room — Building a Classroom Culture That Works

Teachers leave with a concrete plan for changing the emotional culture of their classroom. How to handle the student who makes them mad. How to rebuild a relationship that has broken down. The reset method applied to the classroom.

Includes: Classroom culture reset plan · what to say instead cards · relationship repair script · 30-day classroom reset challenge

Option C Upsell — The EmpowerED Teacher Certification (Online) Teachers who complete the CPD day are offered the full online certification as a natural next step. Teachers who discover the programme online purchase it directly. 6 self-paced modules. CPD hours. A career credential. This is the passive income engine.

OPTION C — CERTIFICATION PROGRAMME · 6 MODULES · SELF-PACED ONLINE · CPD CERTIFIED

1 **The Emotional World of the Young Person**

Deep dive into adolescent emotional development, the neuroscience of the teenage brain, trauma, family breakdown, identity and belonging. What is really going on for the students sitting in front of you.

Includes: Adolescent EQ guide · behaviour as communication deep dive · teacher reflection workbook — module 1

2 **Know Yourself First — The Teacher's Inner Work**

Teachers go much deeper into their own emotional history, triggers and patterns — and how these show up in their professional relationships with students. The extended version of the CPD day self-regulation module.

Includes: Personal trigger audit · origin story reflection · teacher reset toolkit — extended · my emotional profile

3 **Relationship Intelligence in Practice**

The full connection framework. Reading the room. Responding to dysregulation. The student who hates you. The student who clings. The student who is invisible. Practical strategies for every scenario.

Includes: Relationship intelligence framework · student scenario toolkit · the trust repair guide

4 **What You Say and How You Say It**

The words that damage and the words that heal. Language that triggers defensiveness vs language that opens up. Real classroom scenarios with before and after scripts. The thing no teacher training programme ever covers.

Includes: Language audit · what to say instead — 50 classroom scenarios · tone and impact guide

5 **Navigating Hormones, Home Life and Hard Stuff**

How to handle a student going through family breakdown, bereavement, abuse, mental health crisis, pregnancy, cultural pressure. What a teacher's role is — and what it is not. Boundaries without coldness.

Includes: Teacher boundaries framework · how to respond guide · safeguarding and emotional intelligence · referring without abandoning

6 **The EmpowerED Teacher — Your Classroom Reset Plan**

Teachers create their personal classroom reset plan, relationship repair toolkit and 90-day commitment to change. Certification awarded on completion. They are now an EmpowerED Teacher.

Includes: Personal classroom reset plan · 90-day commitment card · CPD certificate · EmpowerED Teacher badge

The Girl Code Compass

She already knows. She just needs to remember.

deep mauve

Most suitable for: Secondary schools · Girls pastoral groups · SEND girls · Youth clubs · Faith groups · Community orgs

By the end: each girl knows her own value, understands her emotional world, has a code she lives by — and is no longer looking outside herself for permission to exist.

Girls who are not heard do not go quiet. They scream — through their behaviour, through their relationships, through seeking validation in places that cannot give them what they are really looking for. Absent fathers, blended families, single mothers carrying everything, childhoods lost to adult responsibility — these girls arrive at school already carrying more than anyone should carry at their age. The Girl Code Compass does not fix them. They are not broken. It gives them back something that was always theirs: a compass. A code. Themselves.

6-WEEK GROUP PROGRAMME · UP TO 12 GIRLS · 90 MINS PER SESSION · CLOSED SAFE CIRCLE

1 This Is a Safe Circle — Who Are We?

Establishing the circle. Group agreements. What is said in this room stays in this room. Girls begin to share — often for the first time — who they really are underneath the performance. Sofia creates safety from the very first session. This session sets the tone for everything.

Includes: Circle agreements · who am I really? reflection · values introduction · each girl receives her Girl Code Compass journal

2 My Story, My Feelings — Not My Shame

Girls explore their emotional history — family breakdown, absent fathers, blended families, loss of childhood — without shame or blame. This is the session where many girls experience being truly heard for the first time. Held with complete gentleness and fierce respect. What happened to you does not define you.

Includes: My story reflection · grief and loss exercise · emotional vocabulary for girls · letter to younger me (optional)

3 My Code — The Values I Live By

Each girl identifies her personal code — the values that are non-negotiable, that she will not compromise, that belong only to her. This is the antidote to peer pressure, to the wrong relationship, to giving herself away. A girl who knows her code is unshakeable.

Includes: Values deep dive · Girl Code creation worksheet · what I will and will not accept · my non-negotiables

4 Relationships — What I Deserve vs What I Am Settling For

The session about romantic relationships, friendship dynamics, leaning on a boyfriend, seeking love to fill a void. Handled with extraordinary gentleness — no lecturing, no judgement, no shame. Girls explore what healthy connection feels like vs looking for love from a place of emptiness. The teen pregnancy and early intimacy conversation lives here — not as a warning, but as a consequence of not knowing your own worth.

Includes: Healthy vs unhealthy relationship reflection · what I am seeking and why · the void vs the value exercise · boundaries from worth not fear

5 My Reset — Tools for the Hard Days

Sofia's emotional reset method adapted specifically for girls navigating overwhelming emotions, family stress, relationship pressure and identity confusion. Girls build their own personal reset toolkit — not a generic breathing exercise, but a toolkit that fits exactly who they are.

Includes: Personal girl's reset toolkit · emotional regulation strategies for girls · my safe people · who I call when it gets hard

6 She Knows — The Girl Code Compass Ceremony

The final session is a celebration. Each girl shares one thing she knows about herself that she did not know six weeks ago. They receive their Girl Code Compass — a beautiful physical take-home tool holding their values, their code, their reset toolkit and their commitments to themselves. This session is designed to move girls to their core — in the best way.

Includes: Girl Code Compass take-home (printed, branded, beautiful) · circle closing ritual · certificate of completion · letter from the group

Passive income note: Online version at £67 — 100 girls/mo = £6,700. School licences at £2,000 recurring. Physical journal at £18/student — 500 journals = £9,000 and the journal becomes its own marketing tool as girls carry it. This programme will spread by word of mouth faster than anything else in the suite.

The Combined School Pitch — Both Programmes Together

These two programmes address the same broken system from both sides of the classroom door. The EmpowerED Teacher changes how the adult in the room sees and responds to young people. The Girl Code Compass changes how young girls see and respond to themselves. One school buys both — and for the first time the teacher and the student are working from an emotionally intelligent place at the same time. That is a whole school transformation. That is the pitch.
